## Education

### Fontys University Of Applied Sciences

2022-Present

(B.S.) ICT & Media Design

## Skills

Contextual Research · Project Management · Prototyping · Usability Testing · Wireframing · Web Design · User Experience Design · Design Thinking · Interaction Design

## Tools

### Visual

Illustrator  
Photoshop  
Figma

### Development

HTML/CSS  
Javascript  
Flutter  
Node.js  
Arduino

## Experience

### Wish 'N Toss Toy Exchange Application

- Designed and developed a Flutter-based app to help parents swap toys and optimize storage.
- Conducted user research to identify user pain points and iteratively refined the interface using Figma.
- Achieved positive user feedback in usability testing

### Efteling Theme Park Guest Experience

- Researched and developed a technology-enhanced treasure hunt game to improve guest engagement.
- Created interactive prototypes using Figma and contributed to the development phase using Flutter.
- Presented design solutions to stakeholders, earning positive feedback for innovative approaches.

### Game Tutorial Website

- Interviewed students to identify popular games among peers and gaps in existing tutorials.
- Designed prototypes using Figma and implemented a responsive website using HTML/CSS and JavaScript.
- Enhanced usability for 20% of students by simplifying tutorials with visual aids and interactive components.
